RHYME NIGAM

7880405860 ◆ nigamrhyme@gmail.com ◆ Portfolio ◆ Lucknow

Summary

Highly motivated **Full-Stack Developer and 2025 BCA Graduate** with a strong foundation in building scalable, user-centric web applications.Proficient in **JavaScript (React.js), Node.js, and Python**, with a proven ability to deliver end-to-end solutions—from responsive frontend design to robust **RESTful API** integration and backend logic. I am passionate about leveraging modern frameworks and **GenAI** to solve complex technical challenges. A collaborative team player experienced in using **Git/GitHub** for version control, I am eager to contribute to innovative engineering teams and drive high-quality software outcomes.

Skills

Basic:OS, Networking

Backend Technologies:Python, JavaScript, Php

Frontend Technologies:Html, Tailwind css, React.js

Database: Sql, mongoDb

Experience

Aquartia Technologies Pvt
Lucknow
Intern
05/2024 - 07/2024

- Designed and shipped an end-to-end Ticket Management System used by agents to resolve tickets monthly, designing both frontend (HTML, CSS, JavaScript, React.js) and backend logic (PHP, SQL), ensuring smooth customer ticket submission, tracking, and agent assignment. Created a user-friendly interface for customers to submit and track technical queries, and a backend system for agent assignment and issue resolution
- Created and integrated **RESTful APIs** for ticket data retrieval and updates, tested with **Postman** to ensure reliability and correctness.
- Implemented a **MongoDB prototype** for flexible ticket storage, gaining experience in NoSQL database integration.
- Applied **JavaScript and features** for improved code clarity, asynchronous operations, and better maintainability.
- Optimized UI/UX with **responsive design** principles and reusable components, enhancing user interaction and load performance.
- Collaborated with team members using **Git/GitHub** for version control and code reviews.
- Debugged and optimized an existing Airest website, resolving functional issues, improving load times, and refining user interface elements.

Education

Amity University
Lucknow
Bachelor's of Computer Applications
2022 - 2025

Training / Courses

Social Networks ◆ Completed a course on Social Networks, covering topics such as network structures, community detection, and social network analysis.

Python for Data Science ◆ Completed a course on Python for Data Science, learning to apply Python programming skills to data science tasks, including data cleaning, visualization, and machine learning.
